VOLUME NINE.

STONY PLAIN. ALBERTA. THURSDAY, JAN. 10, 1929

Whole Number 440

See Geo. Oppertshauser for Your Insurance.

I represent the Wawanesa Mutual Fire Insurance Co., the Hartford Fire Insurance Co., and Fidelity Auto Insurance Co.

Notice to Creditors and Claimants.

IN THE ESTATE OF F. W. LUNDY, late of Stony Plain, Alberta, Barrister, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above-named F. W. LUNDY, who died on the 17th day of November, A.D. 1928, are required to file with the Solicitor for the Executrix by the First day of March, 1929, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

DATED this 20th day of December, A.D. 1928.

GEORGE J. DRYAN,
Solicitor for the Executrix.

Amusement Hall for Stony

The plans for a new amusement hall in Stony Plain were laid before the Town Council at its meeting Thursday night last. The projected building is to be 110x40 feet, and will be used a movie theatre, concert hall and as a dance hall.

The man behind the proposition is Mr Ludwig Precht, a recent arrival in town. Mr Precht has no extensive command of the English language and the scheme was submitted to the Council thru his agent.

The location of the new enterprise-to-be is not divulged; but as it is proposed to have it on Main street, and as the width of the proposed building would require the purchase of two lots, there is no doubt the south end of Main street will be favored as the best available.

LOCAL NEWS.

Mr J Christie made a business trip to Edmonton on Tuesday.

Mr W R Creath, who has been farming in Rosenthal district for the past five years, is leaving shortly for his old home district near Brandon, where he has purchased a half section. He will be accompanied by his wife.

Mr and Mrs Philip Thies have returned to their home at Los Angeles, Calif.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year, and the family circle gets a superb magazine free.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, 10159 101st St., Edmonton.

Red Cross Nursery at U.F.A. Convention.

The Red Cross Society will operate a nursery for babies and children who accompany their parents to the convention next week.

In a room at First Presbyterian church will be found small cots and other comforts for the little people. A corner of the nursery is set aside for older children, who will find playthings and picture books.

It is hoped families attending the convention will make use of the nursery and get better acquainted with the various services which Red Cross renders.

An Alberta Booster.

Mr G W Gleason returned last week from a lengthy visit to his former home at Cedar Rapids, Iowa. In commenting on the troubles which the farming population of the Middle Western States have to contend with, he states that one of these is over-production no profitable outlet for the farmers' products; another is the high valuation on the land, which ranges in some places up to \$600 and \$700 an acre, with no buyers in sight. The taxes which this high valuation brings in its train is rather cruel. Where Alberta farmers squawk when asked to pay \$50 to \$75 taxes on a quarter, the American farmer pays up to \$400 on a quarter section, with, at times, little in sight with which to meet the demand.

It amazes Mr Gleason that more American farmers do not leave their troubles behind them and migrate to the Promised land, the Canadian West, where the soil is fertile and taxes comparatively low.

Mr Gleason is staying, for the present, with friends near Telfordville, across the river

Better Health In 1929

A year or two after the close of the Great War, and when it was organizing its peace programme for "the improvement of health, the prevention of disease, and the mitigation of suffering," the Canadian Red Cross Society launched a monthly magazine for the purpose of arousing public interest in the matter of individual, community, and national health. With the end of 1928 publication of this little periodical ceased, and in announcing the cessation of publication, the Red Cross stated that in the intervening years the subject of health improvement and disease prevention had made such giant strides, and so many organizations and publications were devoting their energies to the subject, while almost every daily and weekly paper regularly printed health articles, that the same necessity did not exist for the Red Cross magazine, consequently the money it cost to produce could be devoted to other purposes.

There has certainly been a gratifying increase in public interest in health matters in the years following the war. With all its awfulness, tragedy and enormous loss, the war at least served the purpose of advancing the cause of health. Today, Canada is probably the healthiest country in the world, but, even so, there is still vast room for improvement, and that improvement cannot be brought about alone by medical men, governments, hospitals, and health organizations. It rests largely with the individual.

In the past it has been true to a great extent that people only became actively interested in their health when they became sick, notwithstanding the fact that every intelligent person will frankly admit that prevention is better than cure. In all industry in this age special efforts are directed at the elimination of waste and all unnecessary costs in business. Yet loss of time, loss of efficiency, loss in production, loss of earnings by the employee and of profits by the employer, loss occasioned by increased expenses at the very time when income is decreased or stops, is the direct result of sickness.

It is the cause of the greatest aggregate loss in our national life. No better New Year resolution can be made, or observed, by the individual, or the community, than one which finds expression in a determination to safeguard health. Such a resolution finds added force at this particular time when an epidemic of influenza is again sweeping the continent, although, fortunately, of a milder type than those of some years ago. Influenza is very contagious, but, on the other hand, it can be easily combated through the taking of very simple precautions. If it is not so combated at its inception, it may quickly result in serious complications such as bronchitis, intestinal trouble, or pneumonia.

All health authorities are alive to the danger; so, too, are the life insurance companies, and are engaged in extensive publicity campaigns to acquaint people of the danger and to make known to them the simple precautions they should exercise. Thousands of dollars are being spent in newspaper advertising and other forms of publicity, and it is money well spent, but it will, nevertheless, be largely wasted unless the masses of the people to whom these appeals and advice is directed profit by it.

This new year of 1929 cannot be a happy, prosperous year if sickness enters the homes of Canada, followed by death carrying off loved ones, or leaving numbers of the family weakened and liable to contract other forms of disease. Good health is the first essential to happiness. Without it no person, community or nation can be prosperous.

The Canadian people cannot render better service to themselves and their country than by giving immediate and constantly continuing attention to their health. By so doing they will be laying the only sure foundation to happiness, prosperity, progress.

League of Nations

Coast To Coast Membership Drive To Take Place In April

The weekly and daily newspapers of Canada are warm supporters of the League. It was stated at the regular monthly meeting of the League of Nations Society held in Ottawa, when arrangements were discussed for the membership drive to take place next April. Through cut the length and breadth of the Dominion, it was said, editors have shown an interest in the activities of the League of Nations and in the efforts of the Society to promote it in this country. The support of the press will prove a great asset in the annual "Coast to Coast" Membership Drive due to take place on April 16th, 1929, which will be known as "League of Nations Day."

Missionary (to cannibals)—Warn you in regard to eating my brother. He will give you indignation. He never agrees with anybody.

Stern Wheel Steamboats

Last of Pictureque "Ever Boats" Has Disappeared In E.C.

The Fraser River has seen the last of its picturesque stern wheel steamers which until now have formed a link with the romantic past. The "Cariboo" gold stampede and other notable events in the early history of British Columbia.

The old steamer Skeena has been sold as a cannery tender, and will be used as a bunkhouse for fishermen. She will no longer navigate the shallow and treacherous channels of the mighty Fraser, and she was the last of her line.

Stern wheelers first commenced to operate on the Fraser in 1859.

Every careful and observant mother should know when her child is suffering from rickets. She also knows that if some remedy be not speedily applied much harm will result to the infant. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfying.

Maud—"So you married your employer. How long did you work for him?"

Myrtle—"Until I got him."

No man or woman should hobble painfully about because of corns when no certain relief is at hand as Holloway's Corn Remover.

Happiness is not in getting what you want, but in not wanting what you can't get.

Grand Champion Steer

Alberta Steer Is Sold For A Net Sum Of \$1,250

A new record was set for Alberta in the disposal of MacKenzie Brothers, of Lacombe, of Earl Marshall, the steer which recently won the grand championship at Vancouver, for a net sum of \$1,250. This steer, which was bred by a Prince Marshall bull, owned by S. Henderson of Lacombe, weighed 1,250 lbs. and was purchased by Jackson Brothers, of Vancouver, at \$1 per pound—the highest price ever paid for an Alberta fed steer.

WEAK, LISTLESS GIRLS

Need Such A Tonic As Dr. Williams' Pink Pills To Restore Health

When a girl in her teens becomes pale and listless, especially if at the same time she shows inclination to tire easily, a listlessness and inattention to her work or studies, she needs Dr. Williams' Pink Pills, a tonic which directs and specifically corrects the condition from which she is suffering. A chemical analysis of the blood of such a girl would show it to be deficient in just the elements Dr. Williams' Pink Pills can supply. But an analysis of the blood is not needed. The physical signs are a pallor of the cheeks and lips, dark circles under the eyes, easily tired and breathless at slight exertion. Poor appetite, headaches, and sometimes fainting spells follow; often the patient is nervous and is startled at the least noise. In all run-down conditions there is no other tonic will build up so quickly and so surely as Dr. Williams' Pink Pills. The statement of Miss Dorothy Lumbin, Bush Island, N.S., will bring hope to other weak girls. She says—"I wish from my heart that I could persuade every person who is in a run-down condition to give Dr. Williams' Pink Pills a trial. About a year ago I was a weak girl suffering from impoverished blood and a run-down system. With many of the attendant symptoms. I had often read of Dr. Williams' Pink Pills and decided to take them, and after using six boxes I feel as well and strong as ever. Dr. Williams' Pink Pills will be my remedy in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to others."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

More than 2,100 miles of motor rail postal routes were started in Germany in the past fiscal year.

Minard's Liniment is good for cots.

Mink farming is rapidly developing in Alaska.

Cuticura Heals Annoying Rashes

Bathe the affected parts freely with Cuticura Soap and hot water, dry without rubbing, and anoint with Cuticura Ointment. This treatment not only soothes and heals rashes and irritations but tends to prevent such conditions.

Sample Book Free by Mail. Address Canadian Depot, "The Sun," 1000-1001, Toronto, Ont. Price, 10¢ per box. Cuticura Soap 25¢.

Recipes For This Week

(By Betty Barclay)

SCALLOPED CORN AND CELERY

2 cups corn (canned or fresh cut),
1 cup celery (finely chopped),
1 cup buttered dry bread crumbs,
1 teaspoon salt,
1 small green pepper chopped,
2 tablespoons butter.
1 cup hot milk.
Arrange corn, peppers, celery and crumbs in two alternate layers in a buttered baking dish. Add butter to hot milk and pour over the vegetables. Cover with buttered crumbs and bake 30 to 40 minutes. Serve eight.

RICE WITH DATES

1 cup rice,
3 cups boiling water,
1 teaspoon salt,
1 cup dates.
Wash rice and add to boiling water. Add salt and boil 5 minutes. Cook in double boiler 30 minutes. Add dates, cut in pieces, and cook until rice is tender and all the water has been absorbed. Serve hot or cold with milk or cream.

Newly Arrived Missionary: Tell me what became of the man who had this position before me?
Cannibal Chief (patting himself on stomach with reminiscent grin): He took a trip to the interior.

Drives Asthma Before It. The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relief-giving remedy shows how actual and positive is the succor it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

Canada's Dairy Herds

One million, four hundred and ninety thousand, three hundred and forty cows supplied milk to creameries in Canada during 1928.

Seize Russian Peasants

Frontier Guards In Poland Arrest Starving Peasants Seeking Food

Reports from the northern part of the Polish Russian frontier state that Polish frontier guards have been seizing Russian peasants who seek to penetrate Polish territory to get flour and fats in Poland.

The peasants are quoted as begging the Polish guards to permit them to obtain food in Poland in view of scarcity in Russia, adding that they have great trouble in obtaining permission to cross the frontier inasmuch as the soviet authorities feel that the peasants discredit the government by seeking food in a neighboring country.

She: "A fortune teller says I have a lot of money coming to me."
He: "It may be true, it may be—but I would rather hear a paying teller say that."

CORNS

Relief In 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for corns. Sold at every drug store.

What She Reduced

Robert: "I'm never going to take Miss Townsend out to dine again. Too expensive."

Constance: "Why, she told me she was reducing."

Robert: "She was. She reduced my bank-roll about 15 bucks!"

For frostbite use Minard's Liniment.

You may have more than you need, but you never have more than you want.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light last through windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, nurseries, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs. while a square yard of glass of ordinary thickness weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

British Commonwealth of Nations Makes For Greater Security And For Peace of the World

One thing at least, is certain — that within fifty years the British Empire has entirely changed its character. It can no longer be regarded, as perhaps it was possible of regard at the time of Queen Victoria's Jubilee, as a sort of superstate, like any other political unit, but greater and stronger and richer. It has become rather a league of sovereign, independent states, owing allegiance to a common tradition and a common crown, but each self-governing and each the master of its own destiny.

In foreign affairs the British Empire must be considered as having a double relationship; the constituent parts are free to make whatever arrangements they think fit with foreign nations regarding matters which are the peculiar concern of each, while the empire as a whole regulates those relationships which are the concern of the whole.

It might seem to a superficial view that the British Empire had been weakened by those changes which have been brought about in its internal relationship during the reign of King George, but in reality it has been immeasurably strengthened. "The second empire," the Diercksen ideal of a superstate, was obviously and rightly unworkable in modern conditions, and as each dominion increased in power and prestige, as each part of the empire evolved to complete nationalhood, the strain of its relationship with the mother country would sooner or later have brought the whole fabric to collapse.

But in the third empire there can be no such friction, for the dominions are no longer, in fact or in theory, under the tutelage of the mother country. Each nation in the British Commonwealth of Nations is the equal in status of the other, and there is no longer any prospect of the collapse of the empire, since the potential causes of such a collapse have been removed.

And if the ideas implicit in the British Commonwealth of Nations mean greater security for the British Empire they mean equally greater security for the peace of the world. In the days when the British Empire straddled the globe as the personal appendage, more or less, of the United Kingdom, it was inevitably the object of suspicion or envy on the part of other nations.

But today the empire is no longer simply a piece of real estate on an unprecedented scale; it is a league of nations, bound together by the ties of language, of common outlook and tradition and by self-interest.

Fifty years ago, perhaps, the British Empire might be regarded as a menace to the peace of the world, but today it gives the world the example of half-a-dozen great powerful nations pursuing peaceably their peaceful ends without war and without even the possibility of war between them.—Richard Law in the New York Herald Tribune.

Farm Livestock in Canada

The number of farm livestock in Canada as in June, 1928, is estimated as follows: milch cows, 3,792,522; other cattle, 5,000,750; total cattle, 8,793,272; sheep, 3,415,788; swine, 4,497,967; hens and chickens, 43,022,855; turkeys, 2,045,797; geese, 1,125,047; ducks, 995,840; total poultry, 53,779,539.

"Peter, you have shaved off your beard."
"Yes, but how did you know?" —
Buen Humor, Madrid.

The Question Of Diet

Necessary To Know How To Eat In Order To Be Healthy

In order to be healthy and to enjoy long life, it is necessary to know how to eat. The question of what to eat does not enter into this phase of health procedure. According to the health specialists, the majority of people do not know how to accomplish this, and the result is that they suffer from various minor illnesses and in any event suffer discomfort. The following rules should be adopted by everyone.

1. Never eat when you are tired.
2. Never eat when you are aroused by worry or excitement.
3. Never eat when you are going to do things that are upsetting.
4. Eat sparingly anything you like when you are hungry.
5. Do not think you must have three meals per day.
6. Do not force a child to eat when he does not want food.
7. Keep a child out of excitement as much as possible.
8. Do not scold him at meal time.
9. See to it that he gets plenty of rest.

Experience is what one gets while looking for something else.

Twenty Million Letters

Heavy Mail Sent From Canada To Rest Of Empire Last Year

Twenty million letters and postcards went from Canada to Great Britain and the other dominions last year and thus the reduction in the postal rate from three to two cents per ounce means a lessening of the revenue by about \$200,000 a year, on this basis of one-third off. The actual effect, however, may not be as extensive. In 1926 the domestic two-cent rate was re-established and while this cut extensively into the revenue for the first year, it is now back where it was, with compensating increase in the number of letters sent. A like effect on the British traffic is foreseen. Similarly, the parcel post business has grown greatly and all records of every postal district were broken on this Christmas. The number of letters and postcards mailed in Canada at all destinations in the year is figured at 575,000,000.

Blind Composer Wins Prize

That blindness is no handicap to talent and ambition was proven again when Mrs. Beatrice Bennett, of Vancouver, who although blind is a pianoforte composer, won second prize of \$50 for her song, "The Indian Wedding," in a song contest recently put on by a local newspaper.

"Tommy," said the teacher, "Did you throw those words that are sticking on the blackboard?"
"No, ma'am," replied Tommy
"Mine didn't stick."

Aviation Development in West Brings Isolated Districts Into Touch With Urban Centres

Better Conditions In Alaska

Radio, and Airplane Keep Isolated Folks In Touch With World

There are now fewer insane patients in Alaska than at any time since the Klondike gold rush. Insanity generally was described as caused by the long winters and isolation from human society. Miners, trappers and reindeer herders were its victims.

Radios and airplanes have reduced this malady, physicians declare. Practically all the distant camps have radios to tell of events around the world and diffuse entertainment. Almost daily airplanes may be seen in every section of the territory, bringing letters, newspapers and supplies to the most isolated settlements.

Canadian Cattle Best

Western Canadian cattle are superior to the beef stock of the Argentine, according to E. C. Harper, long a resident of the South American cattle country, who was in Vancouver recently after visiting the cattle ranges of Alberta and British Columbia.

There is such a thing as being too persistent at times.

CANADIAN CATTLE FOR AUSTRALIA

That Canada is one of the world's leading producers of high class cattle is well illustrated by the recent shipment of pure bred Aberdeen Angus cattle from the Glencairn stock farms, owned by J. D. McGregor, of Brandon, Man., to the Australian Government. The shipment comprising 28 head, was selected by Mr. McGregor and officials of the Australian Government. The picture shows some of these animals. Upper right, Glencairn Revolution, senior sire; upper centre, four of the prize animals. Upper left, Black Cap Bixie, one of the show cows; the lower picture shows a few of the prize animals.

After a trip from Brandon over the Canadian Pacific Railway lines, there was shipped on December 2nd, aboard the oil burning steamer "Thurski," sailing from Vancouver to Sydney, Australia, 28 head of pure bred Aberdeen-Angus cattle from the herd of James D. McGregor, Brandon, Manitoba. This is an epoch making shipment because it is only the first shipment of Aberdeen-Angus cattle from Canada to our great Dominion below the equator, to Australia. The consignment comprises two lots — one of 18 females and two bulls for the government of New South Wales and another of 8 females and 2 bulls for G. W. Mackey, Hemady Adomandy, New South Wales, Australia.

The idea of importing into Australia a herd of Canadian Aberdeen-Angus cattle originated with J. B. Cranley, who is chairman of the Australian Metropolitan Meat Industry Board. Mr. Cranley has supervision of abattoirs, stock yards and slaughter houses for the Australian government and some time ago he made a trip around the world for the purpose of gathering as much information as possible that would be of assistance to him in his efforts to provide better facilities for the handling of Australian meat products. During that trip he made a visit to Glencairn Farms, and became so deeply interested in the Daddies, that he decided to endeavor to interest private

individuals in his own country to make some purchases here. Finally, however, he succeeded in interesting the government of New South Wales, and later 18 females and 2 bulls were purchased, the entire transaction being arranged by cable. When the deal was finally completed, the government of New South Wales sent C. F. Grant, head herdsman, to Brandon, to inspect the consignment and arrange for its shipment to Australia.

Colla Campbell is in charge of the shipment on its long journey from Brandon to Sydney. Mr. Campbell has been in very responsible position with trading houses for years, and he has had extensive experience in handling over-seas shipments, having made two trips to the Orient, and one to South America. The services of Mr. Campbell were secured by Mr. McGregor to ensure the landing of the cattle in good condition so that they may be paraded at the Sydney Royal Show, which opens April 3rd, 1929, following which they will be shown at Melbourne and Brisbane. To fortify Mr. Campbell and his charges against a longer trip than is anticipated, 18,000 lbs. of rolled oats, six tons of bran, and 12 tons of hay were loaded with the cattle.

While upon examination one is impressed with the individual excellence of the animals shipped, students of Aberdeen-Angus breeding will be struck with the excellence of the breeding of every animal in

the consignment. Not only do they belong to the fashionable families — there are Blackbirds, Blackcaps, Elba Erica's, Miss Burgess, Elba Erica's, Enchantress Erica's, Georgian's and several more of the breed's leading strains — they are descended from real working cattle on both sides of the pedigree. Most of the pedigrees show from three to four generations of Glencairn breeding; and many of them more than that. Such bulls as Edward Glencairn, the present herd sire, Blackcap Revolution, Edward of Glencairn, Euros of Glencairn, Evreux of Harvester, Pauline's Peer, Edinboro of Glencairn, Pride Lad of Hoston, and old Leary 3rd, of Meadowbrook, have had an important part to play in the creation of the great consignment of cattle to the land of the southern cross.

In order that the Australian people might get the very best possible impression of Canadian Aberdeen-Angus cattle, Mr. McGregor selected practically his entire show herd to form part of the consignment for the New South Wales Government, and when C. F. Grant, head herdsman for that government, was at Brandon on November 20th, to inspect the shipment, he stated that he was very highly pleased with the selections that had been made. In fact he ventured the opinion that the consignment would create a sensation in Australia.

Adventure and tragedy have marked the chapter of aviation progress in Western Canada during the past year, when pioneers of the aerial routes dreamed their way over trails where once the adventurous men of the West trekked across the unbroken prairies in ox carts and prairie schooners.

Today, rapid aerial communication has brought isolated districts in touch with urban centres; opened new fields; focused attention on the immense unmineral possibilities of the great north country and human endeavor. Lives have been saved by daring pilots, and valuable assistance has been rendered to the men blazing new trails in the hinterland. The lonely trapper, hunter, prospector, miner and railway construction worker all can pay homage to the men of the air who in numerous cases have brought sustenance and saved them from death in the barren lands.

Varied have been the uses of aeroplanes in the West. They have been used in the transportation of mails from Winnipeg westward, to conveying passengers to prairie cities and to the mining fields; in hunting for bandits; carrying injured workers from mines, and for bringing trainmen from the scene of a railway wreck to hospital for medical treatment.

But the pioneering in aviation has taken its toll of life. Among those who dared the perils of the air and paid with their lives are Captain E. J. Stevenson, killed at The Pas, Manitoba, January 5, last; Captain Walter Lawson, who met death when his plane crashed near a Winnipeg aerodrome, June 16, and Carl Sherritt, millionaire trapper and prospector, victim of an aerial mishap at The Pas on April 12. Sherritt was a novice at the flying game, but the others were well known Canadian pilots who had taken up commercial aviation after the war and brought to it the daring and resourcefulness gained in overseas adventures.

Epic stories of escape from death in the far north are contained in the year's chapter of aviation. Flying Officer A. A. Lewis, of Winnipeg, and Flight Sergeant E. C. Terry, attached to the Hudson Strait patrol of the Royal Air Force, are among the airmen whose adventures made aerial history in 1928. When making a northern survey, accompanied by an Eskimo, they were lost for many days when forced to bring their plane down on an ice floe on the Labrador coast. Eventually they made their way to shore and were guided to Port Burwell by an Eskimo trapper. Another memorable story is that of Flight Commander A. E. Godfrey and his companions, who were missing for a considerable time in the Peace River country while on a projected flight from Vancouver to Ottawa.

Moose Jaw Foxes For California

From an original two pairs of silver foxes obtained from the Moose Jaw Silver Fox Company, Limited three years ago, Wellington White has started a silver fox farm at Rondo Beach, California, with 17 pairs of foxes. They were shipped from Moose Jaw by the company to form the nucleus of a large ranch in the western state.

In Italy and California man is using natural steam from volcanic power stations.

"I wish women would not kiss in the moon light by the company to work." — De Notenkraaker, Amsterdam.

WORLD HAPPENINGS BRIEFLY TOLD

The preparatory commission for a disarmament conference has been convened to meet at Geneva on April 15.

Dr. J. D. MacLean, former premier of British Columbia, has taken an important post in the federal department of finance at Ottawa.

At a meeting of the selection committee in Winnipeg, Lawrence C. Bonnycastle was selected as Manitoba Rhodes scholar for 1929.

English "with no American tinge" will be the world dominating language, Professor R. Dymowski, of Poland stated at the Modern Language Association meet, in Toronto.

Rudyard Kipling celebrated his 63rd birthday on his estate "Batesman" and the following day joined in celebration of his wife's 63rd birthday. Both days were spent quietly.

President Emilio Portes Gil believes that prohibition would benefit Mexico but he will attempt to wean the people from alcoholic beverages by distraction and education rather than by a sudden and severe law.

A new record for grain exports was established by the port of Montreal during the 1928 navigation season, when 292,575,931 bushels were exported, an increase of 17,508,844 bushels over 1927.

The well-known London chemist Hilton Jones, announced recently the discovery of a new gas, so deadly that it would make war "international suicide." Jones said the gas causes death instantly with the slightest inhalation.

Two new passenger steamers for the Canadian Pacific steamship night service between Vancouver and Victoria have been ordered in London. The new boats are to be delivered in 1930, and will each have sleeping accommodation for 435 passengers.

The annual Lewis gun competition of the Dominion of Canada Rifle Association, an award to the gun team representing "B" Company, Governor-General's Foot Guards, of Ottawa, it was announced at Ottawa. The competition was participated in by entries from units throughout the Dominion.

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can certify that they owe their health to it. Its wonderful power is expressed by the small price at which it sells.

Copper in Northern Canada

The deposits of copper ore in the Arctic region of Northern Canada, although at present inaccessible, possibly constitute one of the great copper reserves of the future.

Grindstones and Pulstones

There are in the Maritime Provinces about seventy grinders, with which grindstones and pulstones have been furnished.

FROST BITTEN.

Relieve the pain of cold-nipped cheeks or ears with Minard's. It will soothe and heal.

Landing Device For Planes

Matter Is Occupying the Attention Of the Government

The construction of an efficient landing device for planes, combining skis and wheels, is occupying the attention of government aeronautical engineers. Several forms are now being tested at Ottawa, but it is admitted that the problem is still unsolved.

The difficulty is one that is peculiar to Canada, air officials stated today. Airplanes frequently take off at one point, using wheels and on arrival at the end of a few hundred miles' trip find it extremely difficult to land without skis. Air mail flights between Toronto, Montreal and the Maritimes are particularly affected.

Winnipeg Newspaper Union

Trim Graceful Lines

A sheer rayon, printed velvet in harvest brown tones, practical for all-round wear, achieves new femininity through demure bow of soft, fallie silk crepe slipped through bound openings at end of diagonal neckline and tied in knot. The circular skirt carries out one-sided treatment in pointed outline, attached to hipoque, to give trim graceful line. The sleeves are dart-fitted. It's easily made and at an attractive cost, for the 36-inch size takes but 3 yards of 40-inch material with 3/4 yard of 27-inch contrasting. Style No. 339 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Plain transparent velvet in golden brown is captivating for afternoons. Crimson red georgette crepe is enchanting for afternoons and informal evenings. Black rayon velvet is dignified for dining out. For all-round wear, select black lustrous crepe satin or navy blue wool crepe. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

SUNDAY SCHOOL LESSON

JANUARY 13

SIN

Golden Text: "If we say that we have no sin, we deceive ourselves, and the truth is not in us. If we confess our sins, he is faithful and righteous to forgive us our sins, and to cleanse us from all unrighteousness." —John 1:8, 9.

Lesson: Genesis 3:1-24; 6:5-8; Mark 7:14-23; Romans 1:18-32; 3:10-18; 1 John 1:5 to 2, 9.

Devotional Reading: Psalm 51:1-10.

Explanations and Comments

What God Is, and What We Should Be, 1:5, 6.—The message which John had received from Christ (see verses 1-3), and which he now hands on, is that God is light. In Him is no darkness (moral darkness, i.e. sin) at all. "Light, as here contrasted with darkness, means not intellectual illumination, but ethical perfection. It describes the absolute purity and holiness of God as he has been revealed in Christ." —A. S. Peake. God is spirit (John 4:24); God is light (1 John 1:5); and God is love (1 John 4:8). "Spirit, light, love are not mere attributes, they are Himself. They are probably the nearest approach to a definition of God that the human mind could frame or comprehend. The more we consider them, the more they satisfy us. The simplest intellect can understand their meaning; the subtlest cannot expound it." —A. S. Peake.

It is not possible to live in sin and at the same time to enjoy the fellowship of God. John next declares: "Walk" in this verse 6, is a familiar figure of speech, meaning one's customary conduct. "Do not the truth means do not live in harmony with the demands of truth. 'The life as well as the statements of the lips are false'."

"A life in moral darkness can no more have communion with God, than a life in a coal-pit, can have communion with the sun." —A. Plummer.

The Atonement For Sin, 1:7.—If we walk in the light, as He is in the light (we walk); God is; we move through space and time; he is eternally; we have fellowship one with another (the nearer we are to God, the more is our fellowship with one another).

"While we walk with God in light, God our hearts doth still unite; Dearest fellowship we prove, Fellowship in Jesus' love." —Charles Wesley.

Grippe! Flu! Influenza! Raging Through Canada

Preventive measures are advisable with so much Grippe in the air. Keep the throat and nostrils clear of infectious germs by inhaling the balsamic vapor of Catarrhazone. By this means you send the healing and soothing properties of the famous "Blue Gum of Australia" all through the air passages of the head and throat.

Catarrhazone stops a gripple cold, it's splendid for itchy throat, relieves headache and quickly drives out the germs of Flu, Influenza, Grippe and Bronchitis. Get Catarrhazone today. Complete outfit, \$1.00, and lasts two months; smaller size 50c. all druggists.

More Effective Danger Signs

A. Houston, Texas, sign says our danger signs are based on the wrong psychology.

Tell a man to "Stop, Look, Listen" and he is impelled to do none of the three.

H suggests the following railroad crossings:

"Come ahead, You're Unimportant."

"Try our engines. They satisfy."

"Don't stop. Nobody will miss you."

"Take a chance. You can get it by a train only once."

Excellent For Croupy Children.

When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer.

It is equally reliable for sore throat and chest, carache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Visitor (surveying room): "This is—er—hardly what I was led to expect from your advertisement."

Landlady: "Well, you ain't the gentleman I thought you was from your letter."

Always keep Minard's Liniment handy.

"Cheer up, old man," said the optimist. "Things aren't as bad as they seem."

"No, but they seem to be," groaned the pessimist.

To Check Flu-Grip

Fight the Germs with Vapors Before They Can Get a Start

Treat All Colds Promptly But Be Careful Not to Disturb the Digestion With Too Much Dosing

While Flu is so prevalent everyone should take precautions to prevent its further spread. Flu is generally accompanied by a headache, burning eyeballs, and aching joints. But it begins so many times with just an ordinary cold.

Too often, the colds are neglected until they have lowered the vitality and permitted the lurking germs of influenza, or pneumonia to "get a foothold." The only safe plan is to attack a cold at the very start. A hot bath, a laxative, and a vigorous application of Vicks VapoRub on the throat and chest at bedtime, will usually break up a cold overnight.

External Treatment Best

For hours after Vicks is applied, its ingredients, time tested remedies, such as camphor, menthol, eucalyptus, thyme and turpentine, are vaporized by the warmth of the body, and inhaled right to the inflamed air passages. At the same time, the ointment acts

through the skin like an old-fashioned poultice, "drawing out" tightness and pain, and helping the vapors to break up the congestion.

Avoid Upsetting Stomach

This simple external treatment cannot disturb your digestion as too much "dosing" is so apt to do. This is doubly important when "flu" is around, for your stomach, as well as your respiratory organs, must be kept in good condition in order to keep your body resistance at its highest level.

For this reason, too, mothers prefer Vicks for children. It can be used freely and often, even by the youngest child, with no fear of upsetting a delicate stomach.

To Help Ward Off the Flu

When influenza colds are prevalent, you can often prevent infection by sniffing a little Vicks well up the nostrils every night and morning, or before exposure to crowds.

Testing Canada's Fuels

The Department of Mines has erected in Ottawa a new Fuel Research Laboratory building, which has been equipped with modern instruments and machinery for conducting extensive research on Canadian fuels—solid, liquid, and gaseous.

A PERFECT MEDICINE FOR LITTLE ONES

Baby's Own Tablets Should Be In Every Home Where There Are Children

The perfect medicine for little ones is found in Baby's Own Tablets. They are a gentle but thorough laxative which regulate the bowels, sweeten the stomach, drive out constipation and indigestion; break up colds and simple fevers and promote healthful refreshing sleep. It is impossible for Baby's Own Tablets to harm even the new-born babe, as they are absolutely guaranteed free from opiates or any other injurious drug.

Concerning the Tablets, Mrs. Alex. J. Perry, Atlantic, N.S., writes:—"I always keep Baby's Own Tablets in the house for the children, as I have found them a perfect medicine for little ones." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugist's.

"Say, pa?"
"What is it?"
"If every day will be Sunday by and by, what will every other day be?"

Love is the thing that makes a fellow want to pay a girl's board bill when he can't pay his own.

"I have been all around and cannot get a car anywhere."
"Have you tried the ditches?" —Pages Gales, Yverdon.

Two Hundred Mile Dog Derby Returns To North Country

Famous Mushers Will Race This Year From The Pas To the Flin Flon

After a lapse of four years, the endurance dog derby, which once thrilled the north country, and it might even be said, the world, is returning to The Pas. The gruelling non-stop race which brought fame to Northern Manitoba and its hardy mushers will be revived at the frontier town's winter carnival, March 4 to 7. This time, romance will be added to romance. The course will be from The Pas to the famous Flin Flon mine and back, a distance of 200 miles.

Two thousand dollars in cash prizes, besides other valuable awards, and the Walter Goyne-Grant Rice memorial cup, which has an intrinsic value of \$1,000, will attract mushers from wherever mushers mush. The winner will have the dog racing championship of the world.

"Shorty" Russick, veteran driver, and the youthful, though none the less noted Emil St. Godard, present winners of champion, each have a leg in the memorial cup. St. Godard will be one of the leading contestants this year, and it is likely that Russick will also enter. Other noted mushers are bound to make a strong bid for more fame at the derby since it has gone back to epic proportions. Seppala, Alaska's pride, has been itching for another endurance race, his friends say, and other mushers, from both the east and the west, have already sent in their applications for entrance forms.

Drivers are already training their teams for the test in March. St. Godard's dogs are in the shape after a summer and a fall of workouts. The team of the French-Canadian musher had been trained for the speedier, 150-mile lap races of the last three years, but Emil claims that the dogs have the endurance for the longer route. They have been harnessed to an auto chassis in the warm months and are in good condition for the snow trail.

All the color, the lure, the joys and the sorrows of the land of the northern lights is crowded into the romantic history of dog racing at The Pas.

Hockey players use Minard's Liniment.

Ward Heeler—You promised me a job.

New Mayor—Well, I told my secretary to give you one.

Ward Heeler—But he wanted to put me to work!

ECONOMIC LIFE OF GERMANY IS REPORTED SOUND

Berlin.—Confidence in Germany's economic soundness is the dominant note in Agent-General Seymour Parker Gilbert's report for the fourth reparations annuity year made public Tuesday.

The report paints a complimentary picture of Germany's entire economic life. The agent-general testifies to Germany's punctilious payments of all sums due on the reparations accounts and describes Germany as placing the product of her science, skill and labor at the disposal of creditor nations in an effort to pay for the war.

With reference to payments for the current annuity year the report forecasts that "no question can fairly exist, in the light of practical experience thus far, as to the ability of the reich to provide the full amount of its standard contribution of the plan."

The report states that the payments and transfers during the year amounted to 1,739,000,000 gold marks (about \$440,000,000).

The report proceeds to show that the total annuity of the fourth year was almost one and three-quarter billion marks, of which France receives more than one billion (about \$250,000,000).

The list of creditors included France, Great Britain, Italy, Belgium, Yugoslavia, United States, Rumania, Japan, Portugal, Greece and Poland.

Langsner Leaves Canada

Man Who Investigated Ambrose Small Case, Has Gone To West Indies

Toronto.—Dr. Adolph Maximilian Langsner, who investigated the Ambrose Small case here, some weeks ago, has gone to the West Indies and later will go to Mexico. These sections are presumably more sympathetic to his theories and methods than Canada, whose authorities, according to his own statement, exhibited a disinclination to renew his immigration permit as a visitor in this country.

As on his previous departure from Toronto, he promises to return, make sensational disclosures regarding the Small case, and "solve the mystery in spite of all they can do."

Influence was brought to bear by his enemies and opponents in the Small case, he said, before his departure, with the object of preventing him continuing his investigation of the mystery.

Was Pioneer Railroad Builder

Fat Welch, Well Known In West, Dies In California

Spokane, Wash.—Pat Welch, 70, member of the firm of Stewart and Welch, railroad builders, died recently at Coronado, California, a telegram to relatives here said. Mr. Welch, who had gone to California for his health last summer, had been ill for nearly four years.

Associated with Major General John Stewart, of Vancouver, B.C., Welch had a part of the construction of many railroads in the northwest with General Stewart, held many contracts in the United States, Canada, Great Britain and Africa.

Famous Analyst Dead

Ottawa.—Dr. Anthony McGill, M.A., B.Sc., LL.D., F.R.G.S., formerly chief Dominion analyst, is dead at his home in Berkeley, Calif., according to word received in Ottawa by relatives. His death occurred on Saturday, December 29. He was 81 years old. Dr. McGill was one of Canada's most prominent chemists and was an outstanding figure in scientific circles.

New Air Marshal Appointed

London, Eng.—Sir John Mailland Salmon, air marshal, has been appointed chief marshal of the Royal Air Force in succession to Sir Hugh Trenchard, who resigned December 20. Sir John Frederick Higgins, air vice-marshal, will be promoted to Sir John Salmon's rank.

W. N. O. 1767

Two Opposite Camps

Difference Of Opinions Within the Ranks Of Salvation Army

London, Eng.—For the first time both parties within the Salvation Army have openly admitted that the high council which will meet shortly was composed of two opposite camps. Officials at the international headquarters and at the headquarters of Evangeline Booth, head of the Army in the United States, freely made pronouncements on the probable lineup of voting when the question of removal of General Bramwell Booth as commander-in-chief, and reorganization of the Army will come up.

An official of the Evangeline Booth group stated that after a careful canvass the group was satisfied more than the necessary three-quarters majority of the council will vote for the removal of General Booth and subsequent reorganization.

At international headquarters those who are supporting General Booth refused to concede a possible victory to the other camp, saying that they were sure of at least seven votes, and that they believed the council would vote confidence in the general to continue his leadership.

They said, however, the method of choosing a successor, and other administrative reforms, might be effected, and that even certain of those who would support the general would favor this.

Vancouver Adds To Official Population

Suburbs Have Been Absorbed By Coast Metropolis

Vancouver.—The pandemonium which welcomed the New Year also marked the beginning of a new Vancouver. This city added some 80,000 to its official population at the last stroke of 12. The hitherto separate municipalities of Point Grey and Vancouver South merged with Vancouver proper to form one metropolis with a population of 220,885, according to figures drawn up in a survey completed in December, 1927.

A local directory, however, places the total population at 277,680. According to the lower estimate, Vancouver brought in a population of 142,150, South Vancouver 45,500, and Point Grey, 33,233. Thus this Pacific gateway, which less than half a century ago was but a settlement, has reached a position where it lays claim to being Canada's third city. The next Dominion census will officially place the rivalry between Vancouver and Winnipeg.

Revising Regulations On Incoming Autos

Officials At Ottawa Welcoming Opinions On Existing Restrictions

Ottawa, Ont.—Business men of Western Canada are taking an active interest in the revision of the Customs regulations in regard to the entry from the United States of automobiles.

The Department of National Revenue has been engaged for some time in the re-drafting of these regulations with the purpose of removing objectionable restrictions on incoming autos, and such has been the interest of business men in the west that the work has been delayed temporarily until all representations have been received.

Many boards of trades have written to the department, and the officials are welcoming every expression of opinion. Every effort will be made to so redraft the regulations that they will be acceptable.

New Hotel Is Assured

Saskatoon, Sask.—Definite assurance of construction of a new C.N.R. hotel, consistent in size and character with the needs of the city of Saskatoon, was contained in a telegram received by Mayor G. W. Norman, of Saskatoon, from Sir Henry Thornton, president of the Canadian National Railways.

British Members Nominated

London, Eng.—The British government has nominated Sir Josiah Stamp and Lord Reveston as the British members of the projected committee of experts on reparations. The names of the two deputy members will be announced later.

READS NATIVE SONS

Dr. James Cotton, president of the Native Sons of Canada, who expressed fear that Canada's new immigration agreement with Britain may bring too many settlers here, thereby increasing unemployment and driving Canadians to the United States.

Prisoners Help Fund For Distressed Miners

Heard Appeal Made By Prince On Christmas Day

London, Eng.—Evidence is fast accumulating of the added impetus given the lord mayor's fund for relief of families of distressed miners by the personal appeal of the Prince of Wales broadcast by radio on Christmas Day. The fund now amounts to nearly \$2,000,000 exclusive of the governmental contribution which is to double it.

The governor of a certain prison has sent along \$55 "from the prisoners who heard the Prince." Many letters received at the headquarters of the fund, the Mansion House, are addressed to the Prince personally.

Canada's Trade With U.S.

Best Customer Last Year Says Bulletin Issued At Washington

Washington, D.C.—Canada literally purchased a little of everything American manufacturers had to offer during the first ten months of 1928, and may have "bought the Brooklyn Bridge" if Uncle Sam offered such a structure for sale.

This makes the substance of "our world trade," says a bulletin issued by the foreign commerce department of the Chamber of Commerce of the United States. It stated that the Dominion was the best customer of the United States during the designated period.

FAVORITE PHOTOGRAPH OF PRINCE

Here is reproduced a photograph of the Prince of Wales which was taken from the Illustrated London News. This picture is declared to be the best ever secured of the young man who recently returned from the big game haunts of Africa to the sick room of his father, King George.

To Preserve Niagara Falls

Treaty Is Signed Between Canada and United States

Ottawa, Ont.—The construction of remedial works in the Niagara River designed to distribute the water so as to ensure at all times unbroken crestlines on both Canadian and American Falls, is provided for in a treaty between Canada and United States which was signed at the office of the Prime Minister here.

In addition to providing for the construction of these works, provision is also made that each country may divert an additional 10,000 cubic feet of water per second for power purposes. These diversions will be permitted only "during the winter or non-tourist season, beginning on the first day of October and ending on the 31st day of March of the following year."

The treaty was signed by Right Hon. W. L. Mackenzie King, acting in the capacity of plenipotentiary for his Majesty the King, and by Hon. William Phillips, United States minister to Canada, as plenipotentiary for his government.

Early Seeding

Marquis Wheat Sown At Indian Head On January 2nd

Indian Head, Sask.—Saskatchewan in past years has been noted for the creation of records, some of them strange and unusual, and on the second day of 1929, another was added, that will stand for some time.

This was the seeding of spring wheat, five acres of Marquis being planted on an experimental plot at the experimental station farm. At 1 o'clock, the superintendent ordered his men and teams out, and according to information given Wednesday afternoon, the five acres were seeded before dinner.

The land, summerfallow, was in excellent shape, and the wheat was buried to quite a depth.

New Commander For Rangers

Ottawa.—Included in the promotions announced by the department of national defense is that of Major E. Poole to the rank of Lieutenant-colonel, and to command the Rocky Mountain Rangers, with headquarters at Kamloops, B.C., vice Lieut.-Col. T. Aldworth, who has been transferred to the reserve of officers.

To Tour Canada

Ottawa, Ont.—William Clark, British high commissioner for Canada, next month hopes to visit Winnipeg and also Quebec, and then in the spring make an extended tour across the Dominion to Vancouver.

EFFICIENCY OF NEW COMBINES AMPLY PROVEN

Ottawa.—Contributing to the progressive transition of Canada's farming industry, one of the more recent labor-saving devices, the reaper-thresher, or "combine" is playing an important part, according to E. S. Archibald, director of Dominion experimental farms.

Latest statistics, compiled by the federal department of agriculture, show that more than \$12,000,000 have already been invested in this new harvesting machine by farmers of the prairie provinces. It is also estimated that more than 3,500,000 acres of grain were cut and threshed during 1928 by the new method.

Saskatchewan, the premier grain producing province of the Dominion, leads in the use of combines in use with a total of 2,856. In Alberta 1,095 machines were in operation, while 206 were introduced in Manitoba.

Exhaustive experiments with the combine have been conducted by the federal department. Data has also been collected from owners scattered throughout the Dominion. From this information it has been established that very little trouble is being experienced in operation of the combines and that grain kept without loss in grade or milling quality.

The survey further revealed that harvesting with combines resulted in an approximate saving of eight, or nine cents per bushel. A number of owners reported a saving of grain averaging 2.96 bushels per acre and that better grades were secured than for binder harvested grain. A few received lower grades, while the majority of users noted no difference.

The canvass indicated that weeds caused delays in some sections. Several operators, however, stated that burning of combine stubble and straw had rendered the succeeding crop free from weeds and in several instances had increased the yield from two to six bushels an acre.

Senate Editor To Retire

Albert Horton Quits Office After Fifty Years' Service

Ottawa.—After half a century of service, Albert Horton, editor of Senate debates in Canada's parliament is to retire shortly. It was announced recently. He will be succeeded by David Halpin, at present of the Senate Board staff.

Mr. Horton has been a familiar figure on parliament hill since he was brought here in 1877 by Hon. George Brown, to report the proceedings in the Senate for the Toronto Globe.

The Flu Scourge

Epidemic Most Severe In Nova Scotia and Ontario

Ottawa, Ont.—Ontario and Nova Scotia are the two provinces of the Dominion where the ravages of the 'flu are most severe at present, declared Dr. J. A. Amyot, deputy minister of health, but the visitation of the scourge this winter is by no means as serious as those of 1918, 1919 and 1924.

The complications which accompanied the malady in those years have not been present to such an extent in the present epidemic.

Makes Endurance Flight

Los Angeles, Calif.—A new world's endurance flight mark for feminine flyers was attained by Miss Bobbie Trout, 19-year-old Los Angeles girl, when she landed her "Golden Eagle" plane here, setting a new continuous flight time of 12 hours and 11 minutes.

Tempest In Japan

Tokyo.—Seven hundred houses were reported destroyed, 54 persons killed and scores injured by storms on the Kuroshio coast, southwest of Nigata. Information received by the railway department here, that at least 20 villages were inundated by the high seas.

Reconstructs Continent's Oldest Music

DR. HEALEY WILLAN.

The oldest music hitherto recorded on the American continent has been unearthed and reconstructed for production at the forthcoming Sea Music Festival at Vancouver. These are three song-dances ascribed to the Indian Chief Mambertou by Marc Lescarbot, the young lawyer from Paris who in the year 1609 published an entertaining account of the life of the French garrison at Port Royal in Nova Scotia. Lescarbot, like all educated men of his day, was something of a musician, and wrote down in solfa notation the melody of songs he heard this Indian chief sing, but no modern historian appears to have realized the importance of this notation. However, in reconstructing an English version of "L'Ordre de

Bon-Temps," written in French by Louvigny de Montigny, J. Murray Gibson of the C. P. R., was struck by the possibilities of this music, and suggested to Dr. Healey Willan, of the Toronto Conservatory of Music, that he should arrange it for modern production. To an Indian, the melody is only half the music, and the problem was to discover the original rhythm. Fortunately, after considerable study, Dr. Willan was able to find in the traditional tribal music of the Mellicite Indians, who are descendants of the Bourquios of Lescarbot's time, three traditional dance rhythms which exactly fit the melodic line of the notes recorded by the French historian of three hundred years ago. In this manner three

delightful song-dances have been reconstructed and have been incorporated in the ballad opera "The Order of Good Cheer," which will be produced on January 25th at Vancouver. Hitherto the oldest song identified with Canada has been the hymn "Jesu Abandon," which Father Brebeuf translated into the Huron dialect about the year 1649 for the Indian converts at Quebec. The song-dances of Chief Mambertou are, however, native to Canada and were noted by Lescarbot in the year 1609. The probability is that they were old even at that time, as folk-tunes are handed down by Indian musicians from generation to generation.

CHAPTER XL—Continued

For hours Donald followed the expert through the mill, while the latter explained and tested the different motors.

Once a week Robert Rennie came to the mill, taking a keen interest in all phases of its construction, and invariably he went away with a pleased smile on his face.

"Never saw the old man so worked up," commented Gillis. "Guess he'd like to come up here and run her himself."

Rennick was still skeptical. For no apparent reason he had taken a dislike to Donald. "It's just 'cause you and I are such good friends," explained Gillis. "Me and him get on like a couple of strange bull-dogs."

When the huge three-storied mill, with its dry kiln, lumber skids, conveyor shaft and railroad spurs, was ready for operation, and each machine had been tested, Robert Rennie arrived with other officials of the company. Next morning Donald's heart thumped as the mill's big whistle sent out its first call to work and the men filed eagerly to their posts.

The logs were sprayed with huge water-jets as they came up the chain-haul to clean them of gravel and debris. The electric "riggers" spun them about and threw them to place with a thrust that shook the mill. Then in a wild crescendo of sound there rose the harsh chorus of saws: the singing howl of the cut-off, the strident, scurrying sound of the gang-saws, and the staccato snarl of the trimmer.

Smiling and rubbing his hands, Robert Rennie walked through the mill. "Running like a greased pig," shouted Gillis above the dinour. The owner of the R. C. & L. Co. so far forgot his decorum as to slap the astonished Gillis heartily on the back.

Donald noticed an ever-increasing irritability on the part of the logging foreman during the next week. The erstwhile jocular Gillis became sulky

and morose. Donald got an inkling as to the cause of his friend's gloom when he heard Gillis in conversation with Andy.

"What the 'ell's the matter, you big lunkers? You're like a bear with a sore foot," complained Andy.

"If my gang don't get here pretty soon, and I have to put up with this crowd of boobunks much longer, I won't be fit to live with," growled Gillis.

Gillis's gang of "redshirts" were known the length and breadth of British Columbia. Employers bid high for their services, but for many years they had stuck loyally with Gillis and the R. C. & L. Co. At present they were employed by the Company in one of their camps up the coast, but at Gillis's earnest request, Robert Rennie had promised to send them to Summit Lake.

Gillis's "redshirts" had the well-earned reputation of being the wildest crew of lumber jacks west of the Rockies. "They're wild, all right," Gillis had admitted; "a swearin', drinkin', fightin' gang of roughnecks. But holy mackerel! How them boys can log!"

That night Gillis confided his troubles to Donald. "I don't know what in tarnation's to become of loggin' in years to come if things keep on as they are now," he began in a despondent tone. "It used to be that when you sent down town for loggers you got loggers. But now, with a gesture of disgust, 'you got a lot of silk-stockin'd, mandolin-playin', 'gum-chevin', smooth-haired guys, or else a bunch of snuff-chewin', garlic-smellin', macaroni-eatin' boobunks, whose names sound like war in Central Europe."

Sighing reminiscently, he continued: "I often wonder if it's because I'm gettin' old; but, you know, when I look back on the days, when we logged with bull teams, it seems to me that the men at that time liked to work. I can still see the old timers in their whiskers, and their big black hats and flannel shirts, as they sailed out on the old Comox or the Cassiar. He shook his head sadly. "Ah! there was only one kind of logger in them days."

Seeing that Donald was interested, he went on: "Yes, there's two kinds of loggers nowadays, Donnie, the 'single-breasted' and the 'double-breasted.' And there's a hell of a lot of difference between the two. The 'single-breasted' logger is a man that don't speak anything but English, an' he don't belong to the 'I won't work's' neither. He knows loggin' from A to Z, don't mind sleepin' in a bunk, and always carries his own blankets. If he borrows a ten-spot off you, as soon as he earns it he comes lookin' for you, slips you the money, grabs you by the hand, and looks you straight in the eye, says, 'Thanks, friend, come and have a drink.' At night, when he is through work, he'll smoke his pipe, grind his axe, talk about the next day's work with the boss, read the paper and go to bed. In the mornin' he'll swallow a big load of prunes and ham and eggs and go to work a-singin'."

"But this 'double-breasted' he snorted disgustedly, 'he's a mixture of a taxi-driver, bartender and soap-box orator, and just because he lives in B.C. he thinks he is a logger. He smells the difference between a fallin' saw and a buckler's saw, and that's about all he knows. If he borrows a dollar off you, the minute the bill slips out of your hand you can see a look in his eye that says, 'You're hooked.' And the devil of it is that he won't cross to the other side of the street when he sees you comin', but he'll walk right up to you a-smilin' and ask you for another buck."

"When he gets through at night he cleans his finger-nails and picks on a mandolin while he tells how many James is stuck on him in Vancouver; gives an opinion that the shower-bath was not hot enough, and how he suffers' workers should rise against the capitalists." He'll kick at the breakfast table because there is only oranges and no grape-fruit. When he goes in the woods he'll throw a few tools away so's to help the cause of the workers."

"Workers!" he exploded, as he came to his feet and walked the floor. "We've got too many 'double-breasted' and 'hunks' in this camp right now, Donnie. A hunk will work if you allow him a pick and shovel, but these other guys are trouble-breeders. Did you see that big brute that came in today?"

Donald remembered seeing an enormous man with narrow, pig-like eyes, in the crowd of men sent by the employment agency.

"That's old Hand. He's a bad egg. I s'pose I'd ought to fire him, but he's a good logger, and they are mighty scarce 'round these diggins'." He yawned sleepily. "Get to fix a 'spar-tree' for a 'high-lead' tomorrow, so I better hit the hay."

Preparing the "spar-tree" for "high-lead," or "sky-line" rigging, is the most spectacular and thrilling performance in the logging industry. A standing tree is trimmed of top and branches, then strengthened with guys. With the pull coming from this altitude, the advantage over the straight ground pull is enormous as logs are lifted high in air over all impediments. The men who do this hazardous work are known as "high-riggers."

Next morning a man with a short-handled axe, wearing a wide belt to pass around the tree-trunk, and a pair of line-man's spurs, slowly climbed a big fir. As he ascended he trimmed the trunk clear of limbs. Quite a crowd gathered, among them the trapper, with his rifle on his arm.

"I ain't got a 'high-rigger' in the cut," growled Gillis. "This feller agreed to trim her, but he says he never chopped the top off one, so I guess we'll dynamite her." The explosive, with a detonating cap, was used around the top of the tree and wires strung to the ground. For some reason the batteries would not act, and Gillis chafed under the delay.

"I kin set her off for ya," said the old trapper.

Gillis turned to him. "How?" The trapper tapped his gun. "Put a piece of paper on the cap so I kin see her and I'll pop it."

"That's a new one on me," laughed Gillis.

He sent the man aloft to place a square piece of pasteboard on the cap. The men moved back from the foot of the tree, and Gillis gave the signal that all was clear. The old trapper sprang briskly to the top of a stump, tipped his big hat to the back of his head, and raised his rifle slowly. For an instant the long barrel wavered slightly, then steadied. The report of the rifle was drowned by a splintering crash. The heavily-branched top lifted, then came hurtling through the air to strike the ground a mass of wreckage. For a moment the big spar stood drunk only from the shock, then stayed stark and rigid. Deprived of its friends of green, it appeared a ghastly relic of its former self.

That afternoon, as they waited the arrival of the train, Gillis talked again of his "red-shirts." "White men, every one of them," he declared proudly, "none of 'em with a nickname that is known all over the Coast. Ye just ought to see my two 'high-riggers,' 'Hoop-la' McKenzie and 'Blackie' Anderson. 'Blackie' is as black as an Indian, and 'Hoop-la' got his name from standing on the top of a spar tree, after he cut her off, wavin' his hat and yellin' 'Hoop-la'."

"I got five Jack McDonalds in the gang. Their names are 'Sly' Jack, 'Fightin'' Jack, 'Check-Book' Jack, 'Johnnie-On-The-Spot,' and 'Crazy' Jack. An' if they had all bin named 'Crazy' Jack it wouldn't bin no mistake," he finished with a laugh.

The train rumbled to the station and the usual crowd of workers came pouring from the cars, while a crowd stood waiting to board the train. It was the same every day—men coming and men going.

Gillis uttered a glad cry. "Here they are!"

A big, catenational man, with broad shoulders and narrow hips, stepped to the platform. His dress was truly colourful and striking—with hat, high boots, a vivid scarlet shirt, with a cloth belt of the same bright hue tied at the side, the ends dangling loosely.

"Get out of the way, hunkers, and make room for a logger!" he roared, as he elbowed his way through a crowd of scattering foreigners, behind him a line of men clad in the same brilliant attire.

"Hello, Hoop-la! you ornery ol' skat!" yelled Gillis.

The big man turned. "Here he is feller!" he shouted.

In a moment Gillis was surrounded by this picturesque crew, howling tumultuous greetings.

"Hello, ol' hoss!"

"Hello, you son-of-a-gun!"

"How the hell are ye?"

Donald was subjected to crushing handshakes as he was introduced to each and every one of this crowd of husky loggers.

As Donald studied them he did not wonder at Gillis's pride in these men. With the exception of Blackie, there was none under six feet in height; and they carried themselves with a loose swing that was almost a swagger. Many of them were well past middle age, some quite grey about the temples. They were all filled with the sparkling health of the great outdoors, their skins the colour of mahogany.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

TOOTH EXERCISE

You have read considerable of late about the "daily dozen," and other such setting-up exercises.

So you know, of course, that the body requires exercise if it is to develop and keep fit.

You have been told, too, that a vigorous chewing of your food is both beneficial and necessary as the first step in good digestion.

But perhaps you have never given thought to the beneficial effects of thorough mastication on the tooth structures themselves.

In the first place, then, there is the stimulating effect on the supporting structures of the teeth, giving them proper "tissue tone."

In the growing child, the development of the teeth is impossible without sufficient masticatory exercise.

Former generations ate hard and coarse food, and suffered little from dental trouble.

Mastication of such tough uncooked food gave to their teeth and jaws sufficient exercise to promote the most vigorous circulation and a very decided massage of the gums. These mechanical effects from the scrubbing of the tooth surfaces are lacking, with the result that Nature working out her inexorable law, that a member that is not functioning as intended gradually loses its efficiency, is making the tooth structure softer and less resistant to disease.

There should be, therefore, an habitual use at each meal, of foods selected not only on account of their nutrient qualities, but because they are of such a nature as to require vigorous masticatory effort.

A Berlin husband advertises his matrimonial troubles in a local paper: "My pious, faithful wife has departed from me. Will the honorable 'finder please keep her'?"

Little Helps For This Week

"Freely ye have received, freely give."—Matthew x. 8.

The Hand that strews the earth with flowers,
Enriched the merciful feast with wine,
The Hand once pierced for sins of ours,
This morning made the dew-drops shine.

It freely gives its very best,
Not barely what the need may be,
But for the joy of making blest;
Teach us to live and give like Thee.

Not narrowly men's claims to measure,
But daily question all our power,
To whose cup can we add a pleasure,
Whose path can we make bright with flowers?"

—Elizabeth Charles.

Opportunities come reaching, out
their hands to us every moment,
not to do great things perhaps, but for the "Little, daily, unremembered acts of kindness and of love," that take off the chill from our undermanned matter-of-fact intercourse with one another, and keep our hearts from starvation.—Lucy Larcom.

Short of Breath

Smothering Feelings

Choking Sensation

Mrs. H. Day, Dartmouth, N.S., writes: "For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of the choking sensation which followed."

After trying many treatments, in vain, I at last decided to try

and in a surprisingly short time they did me much good. Price 50c per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1767

Stony Plain and District.

IT PAYS TO PAY CASH.

Mr Tom Rics, of Brule, was a Sunday visitor in Stony.

The Misses M. Paul and A. Foerster have returned to Buford, when their school reopened on Monday last.

R. C. services will be held in the Town Hall on Sunday next at 10.00 a.m.

The Family Herald and Weekly Star of Montreal holds a record for subscribers renewing voluntarily and continuously year after year. After all it is not surprising when one considers the quantity and quality of the readers are given each week and at a price ridiculously low—\$1 a year or three years for \$2.

The annual meeting and election of officers of 'Stony Plain U. F. A. Local, billed for Saturday afternoon last, was unavoidably postponed to Saturday next, the 12th. A delegate to the U. F. convention in Edmonton the following week, will be elected.

DIED—On Tuesday, Jan. 1, the infant son of Mr and Mrs C. W. Barth, of Rosenthal district. The funeral took place Thursday, Jan. 3. Interment was made in Rosenthal Lutheran Church cemetery. Rev G. Poetzsch conducted the service.

In spite of the severe weather on Friday night, a goodly crowd of dancers assembled at the opening dance at the new Brightbank schoolhouse. Wohlsein, eat apples; get 'em at Hardwick's.

United Church Notes.

On Sunday last service was held at Spruce Grove, Brightbank and Stony Plain.

The sermon was from the text: "I am the Light of the world."

The choir is preparing another special anthem.

The Sunday School yearly treat will be held Thursday afternoon. Games will be played and refreshments will be served.

"If" the Bottles were Full!

A contemporary deprecates the practise of some people in leaving empty liquor bottles along the highway. What it would say, should the bottles be full instead of empty, is problematical—but of the empty ones it says, "if some hare-brained nooligans had the bottles broken over their heads, it might awaken a sense of responsibility."

Notices!

Mr A. E. Brunelle has been appointed agent for this district for the Singer sewing machine.

Mr L. Pawlyk of Carvel district, is holding an auction sale on Wed., Jan. 23.

WANTED!

Girl or Woman, for restaurant work. Christie's Cafe, Phone 67.

For Sale, Big Cow, fresh now. Larson Bros., phone R1407.

Calendar.

JANUARY—

12—Annual meeting of the Stony Plain U. F. A. Local.

14—Dairy Pool Convention in Edmonton.

15—U. F. A. Convention.

23—Auction Sale, L. Pawlyk, in Carvel District.

23—Town Band's Whist Drive.

24—Alberta Legislative Assembly meets.

25—Burns' Night.

FEBRUARY—

20—Nomination for Councillors in Municipal Districts.

Carvel News

Rev Father Murphy held services in the Carvel Church last Sunday morning.

Christmas (old style) was celebrated here on Sunday last by the Ruthenian people in a characteristic manner.

Grain deliveries to the local elevators have fallen off since the holiday season commenced.

Pine Ridge Pupils' Concert.

An enjoyable evening was spent in Heatherdown Community hall last week, when the pupils of Pine Ridge school gave their delayed Xmas concert. Numerous recitations, monologs, playlets and choruses were rendered by the pupils in an admirable manner.

Mr Chris Dunham acted as Santa Claus, and distributed the presents from the tree to the delighted pupils.

Refreshments for the older folk were then served, after which three cheers and a hearty vote of thanks was tendered those who worked so untiringly to make the affair a success.

Busy Week for Farmers

The provincial seed fair, conventions of U. F. A., the U. F. W. A., and annual conference of men of the S. S. B., will be held in Edmonton, commencing Monday next, and continuing to the 18th.

Some 700 farmers are expected to attend the U. F. A. convention alone. Most of these will be accompanied by their wives, and others will go in for the seed fair and the other conventions. The Edmonton board of trade has arranged for private accommodation for many of the delegates to the conventions.

A convention under the auspices of the Dairy Pool will be held in Edmonton at the same time, and some interesting addresses will be delivered to the delegates at the several sessions to be held there. Mr Christie Pitzler, a director and an organizer for the Dairy Pool, will be in attendance at all the sessions.

Spruce Grove News

Quite an interest is already being taken in the coming municipal elections, and there will no doubt be keen competition in one or two of the divisions. The retiring councillors are McLaughlin, Giese, Sinclair.

Mr J. Plymouth Brox returned yesterday from a motor trip to Junkins.

The "Duke" is planning a trip to Auld Scotia in the near future.

Messrs. Edmund Pinchbeck and Geo J. Wellbourn have been appointed official auditors.

It is expected that Father Murphy of Edmonton will hold services in St Joseph's Church next Sunday morning at 10.
